

Sinclair broadcasting is an example of why consolidation of stations into huge conglomerates is bad for democracy. Sinclair is intending to air a propaganda film attacking John Kerry's service in Viet nam just before an election. it is even pre-empting its local programs to air this poorly documented and non-factual attack. What ever happened to equal time.? If CBS isn't airing its show on the falsities of going to war in Iraq why should Sinclair broadcast lies and be left unchecked? Thank you.
